Leaders Programme: Using the MPI as a policy tool

August 23–27, 2021 | Online

BACKGROUND

***The Oxford Poverty and Human Development Initiative (OPHI)** is an economic **research and policy centre** within the Oxford Department of International Development at the University of Oxford, co-founded in 2007 by Sabina Alkire and John Hammock. Drawing on Nobel Laureate Amartya Sen's capability approach, OPHI's purpose is to build and advance a more systematic methodological and economic framework for reducing multidimensional poverty, grounded in people's experiences and values.*

The Alkire-Foster (AF) method, developed by Sabina Alkire and James Foster at OPHI, is a flexible technique for measuring multidimensional poverty, inequality, and wellbeing that goes beyond traditional one-dimensional approaches such as income. It can incorporate different dimensions and indicators to create measures adapted to specific contexts and purposes.

Poverty and wellbeing are multidimensional. Over a decade after Sabina Alkire and James Foster developed the AF method at OPHI, it has been used to develop international, national, subnational measures of poverty, wellbeing, and empowerment tailored to specific contexts and priorities. Applications include the Global Multidimensional Poverty Index, Bhutan's Gross National Happiness Index, Women's Empowerment in Agriculture Index, Multidimensional Vulnerability Indices, the Business Wellbeing Index, and an increasing number of national Multidimensional Poverty Indices (MPIs) adopted by countries around the world - collated by the MPPN - among others.

Measures based on the AF method have proven to be powerful tools for governments, development agencies, the private sector, and NGOs to design and coordinate policies, allocate resources, and target beneficiaries. Such actors have found that **to reduce multidimensional poverty effectively and create wellbeing for all, it can be highly efficient to implement integrated strategies that consider the multiple and interconnected deprivations that affect people's lives.**

Development Initiative

Ex-Ed

OPHI Executive Education

With the purpose of catalysing efforts for poverty reduction and promoting human development, OPHI is expanding its scope of work to provide leaders from all sectors with hands-on experience in using the MPI and other AF-based measures to design policies and foster synergies aimed at leaving no one behind.

OPHI ExEd builds upon OPHI's trajectory as a global referent in multidimensional measurements, and the rich experience of a growing network of global champions committed to poverty reduction to inspire today's leaders while also equipping them with practical knowledge and resources to implement high-impact strategies.

Leaders Programme: Using the MPI as a policy tool

August 23–27, 2021, from 13:30 to 16:30 BST | Online

“To turn a corner on poverty, commitments at the highest levels are essential.”

Sabina Alkire, OPHI Director & Juan Manuel Santos, Nobel Peace Prize Laureate and Former President of Colombia - Project Syndicate, July 29, 2020

This inaugural OPHI ExEd Programme is especially directed to senior government officials and high-level policymakers who will receive practical knowledge and direct access to the world's leading experts on multidimensional poverty reduction, to deepen their understanding of the MPI as a policy tool and many of its potential uses, as well as their guiding strategies.

Through 15 hours of interactive lectures, workshops, conversations with global leaders, and practitioners' panels, **this 5-day programme will leverage open discussions and high-level networking with fellow policymakers from around the globe.** Sessions will be guided by practical cases that require analysis and presenting solutions to real-world problems. Participants will also have the opportunity to meet with leading experts during office hours outside the programme schedule to discuss topics of mutual interest.

OPHI Executive Education

"In the wake of the pandemic, we are in a moment of history when policy leadership to confront poverty is essential. The hope is that leaders can use the MPI to, against all odds, definitively turn a corner on poverty. To support them in this effort, we are glad to launch OPHI's first Leaders Programme."

- Sabina Alkire, OPHI Director

»» Learning objectives:

By the end of the programme, participants will be able to:

- Confidently interpret and communicate MPI results
- Set policy goals and lead strategies for poverty reduction
- Coordinate multisectoral teams using the MPI as a tool for:
 - Planning, targeting, and budgeting
 - Strengthening governance
 - Reporting on SDG target 1.2 and other international/national goals
 - Responding to and recovering from the pandemic and other crises
- Use the MPI as a tool to bridge technical and political efforts to accelerate poverty reduction
- Share experiences from and with high level peers across the world

»» Eligibility

OPHI ExEd Leaders Programme is **aimed at senior professionals with a strong interest in multidimensional poverty and a capacity for influencing public policy priorities** at international, national, subnational, and institutional levels. This includes decision makers in the highest levels of a ministry, secretariat, development agency, commission, or multilateral organization, in roles such as minister, deputy minister, permanent secretary, director general, secretary general, executive director, department head, or equivalent.

» Special guests, lecturers and facilitators

Juan Manuel Santos

- *President of Colombia 2010-2018*
- *Nobel Peace Laureate 2016*
- *OPHI visiting professor*

Tshering Tobgay

- *Prime Minister of Bhutan 2013-2018*
- *Politician, environmentalist and cultural advocate*

Amartya Sen

- *Key author of the capability approach*
- *Nobel Laureate in Economics 1998*
- *OPHI Advisor*

Sabina Alkire

- *OPHI Co-Founder & Director*
- *Co-author of Alkire-Foster method*

Ana Helena Chacón

- *Ambassador of Costa Rica in Spain*
- *Vice President of Costa Rica 2014-2018*
- *Congresswoman in the Legislative Assembly 2006-2010*

Margarita Cedeño

- *Vice President of the Dominican Republic 2012-2020*
- *FAO Goodwill Ambassador*

Gabriel Ferrero

- *Ambassador at Large for Global Food Security, Government of Spain*
- *Former Director General, Sustainable Development Policies*

James Foster

- *Co-director of the Institute for International Economic Policy, George Washington University*
- *Co-author of Alkire-Foster method*

Diego Sánchez-Ancochea

- *Head of Oxford Department of International Development*
- *Specialist on political economy in Latin America*

Luis Felipe López-Calva

- *UNDP Regional Director for Latin America and the Caribbean*
- *UN Assistant Secretary-General*

John Hammock

- OPHI Co-Founder and ExEd Advisor
- Chair of the Board, SOPHIA Oxford
- Former Executive Director, Oxfam America

Gonzalo Hernández Licona

- Director, MPPN
- Executive Secretary of CONEVAL Mexico 2005-2018
- OPHI ExEd Advisor

Pali Lehohla

- Statistician General of South Africa 2000-2017
- Member of the steering committee of the Multidimensional Poverty Peer Network (MPPN)
- OPHI ExEd Advisor

Michelle Muschett

- OPHI Senior Policy Lead and ExEd Director
- Former Minister of Social Development of Panama

Abdul Alim

- Former Regional Advisor for Social Policy, UNICEF South Asia
- Deputy Representative UNICEF Turkmenistan and Philippines 2006-2015

Xiaolin Wang

- Member of the Expert Advisory Committee of the Leading Group on Poverty Alleviation and Development of the State Council of the People's Republic of China

Roberto Angulo

- ExEd Advisor and Special Contributor to Content Development
- Co-author of Colombia's MPI

» Session structure

Keynote speeches

Inspirational remarks from renowned global leaders and OPHI's advisors based on their vast knowledge and experience in multidimensional poverty reduction and global development.

Conversations with global leaders

Dialogue space where participants will have the unique opportunity to directly learn from global leaders and become inspired by their thoughts and experience leading poverty reduction efforts.

Live lectures

Case-based sessions facilitated by experienced practitioners who have led multidimensional poverty reduction strategies both at national and international levels. These are informative and interactive sessions where participants will learn about different scenarios in which the MPI has been used to address specific policy challenges and explore ways to adapt it to their specific contexts.

Workshops

Interactive learning spaces where participants will have the opportunity to deal with real-world challenges to reduce multidimensional poverty and co-develop strategic policy solutions guided by the MPI. Breakout groups may be organized to deepen into specific policy challenges. Workshops will be facilitated by experienced practitioners and global forerunners in multidimensional poverty measurement.

Practitioners panels

Peer-to-peer learning space where participants will have the opportunity to share and discuss with each other about their experiences using the MPI to address specific policy challenges. Each practitioners panel will be comprised by 3 panellists pre-selected based on their experience and their willingness to share it with their fellow participants.

OPHI Executive Education

The programme will be delivered in English, via Canvas and Zoom. Please see below the system requirements to run these platforms:

[Canvas system requirements](#)

[Zoom system requirements](#)

» Programme fee: £1,500

The first cohort of the programme will receive a special rate of 1,500 GBP per person that considers the context of COVID-19 and financial constraints for countries and institutions.

The programme fee covers registration and programme tuition, all academic materials, continuous support throughout the programme, and upon successful completion, a digital Certificate of Completion from OPHI and Oxford's Department of International Development.

Limited financial support is be available.

[Apply now](#)

The application deadline for the Leaders Programme 2021 is July 31, 2021. Slots are limited and applicants will be evaluated on the basis of the information provided in their application.

OPHI Executive Education focuses on the policy uses of the MPI and implementation of the measure. Those wishing to delve deeper into the technical side of measurement and learn how to construct and analyse the MPI are invited to apply for the OPHI Summer School.
